

Coral Reef Snorkel Excursion

Don the mask and flippers and enter an underwater world teeming with colorful tropical fish, unique sea creatures, and bright coral arrangements, found only in the Florida Keys.

Your clients and co-workers will be thrilled when they hear that it's time to board *Blue*, Hawks Cay's stable 63' catamaran, to set out for the only living coral reef system in the Continental United States.

Expert divers and first-time snorkelers alike will appreciate the clear waters and thriving sea life they'll encounter at Coffins Patch, one of our favorite snorkel sites. Here you'll explore a series of small reefs defined by shallow depths and coral heads, where French grunts, mutton snapper, all five species of Keys angelfish, and spiny lobster, all call home.

Our professional and courteous crew will offer instruction for beginners and go out of their way to ensure each member of your party has a safe and unforgettable experience. In addition, Hawks Cay's world-class chefs will be happy to prepare gourmet boxed lunches to ensure no one returns to the dock with an empty stomach.

Hawks Cay's snorkel excursion to the reef is the best way to explore the Florida Keys above *and* below, and will create memories your guests will cherish forever.
