### **Hawks Cay Resort Completes Million-Dollar Culinary Expansion**

DUCK KEY — Hawks Cay Resort in the Florida Keys has completed phase one of a million-dollar culinary update, including the opening of two restaurants on the property, as well as two smaller food and beverage outlets for cocktails and coffee. These new culinary offerings are part of a larger hotel renovation, said

James Moss, director of sales.

Set to be complete later this year, phase two upgrades will enhance the experience of the adults-only area. This private area, which now includes the Tranquility Pool lined with private cabanas, will be expanded and soon welcome The Sand Bar, an alfresco restaurant in the sand.
